

What if your home could tell you when to sell?

Consumer Asset Intelligence Platform

Team Presentation · Spring 2026

Five minutes. *Six chapters.*

I

The Problem

3 to 7 years of silence

II

The Solution

One platform. Every product.

III

The Data Moat

Why we compound

IV

The Market

\$367B by 2029

V

The Business

Three streams, one platform

VI

The Roadmap

18 months from idea to launch

Part I

The Problem

Three to seven years of silence between purchase and resale.

Between the day you buy
and the day you sell — nothing happens.

Companies solved this.

ERP systems · Accountants · Depreciation schedules · Real-time asset tracking

Individuals have nothing.

Value disappears silently. No alerts. No tracking. No way to know when to sell.

Every existing tool misses the middle.

Platform	Strength	Weakness	Status
Amazon	Pre-purchase comparison	<i>Ignores ownership phase</i>	—
eBay	Selling marketplace	<i>Only after you decide to sell</i>	—
Sortly	Small-business inventory	<i>Not consumer-loop focused</i>	B2B pivot
Encircle	Insurance claim docs	<i>Consumer app shutting down</i>	Dec 17, 2025

No one owns the space between buying and reselling. That is where we go.

Part II

The Solution

One platform. Every product you own. Always up to date.

AssetLoop tells you three things
no platform tells you today.

01

WHAT

Every item in your home, automatically inventoried.

02

WORTH

Real-time resale value across all marketplaces.

03

WHEN

The optimal sell window — before the value drops.

In real time. For every item. Always.

Four steps. One loop.

AI vision recognizes products from photo, receipt, or barcode.

Live resale data + depreciation curves updated daily.

Get alerted at peak value. One-click listing to marketplaces.

Net-cost calculator: how much an upgrade actually costs you.

From scan to sale — in minutes, not weekends.

PRODUCT PREVIEW

Your portfolio,
in your pocket.

\$12,847

Real portfolio value, updated daily

Sell alerts

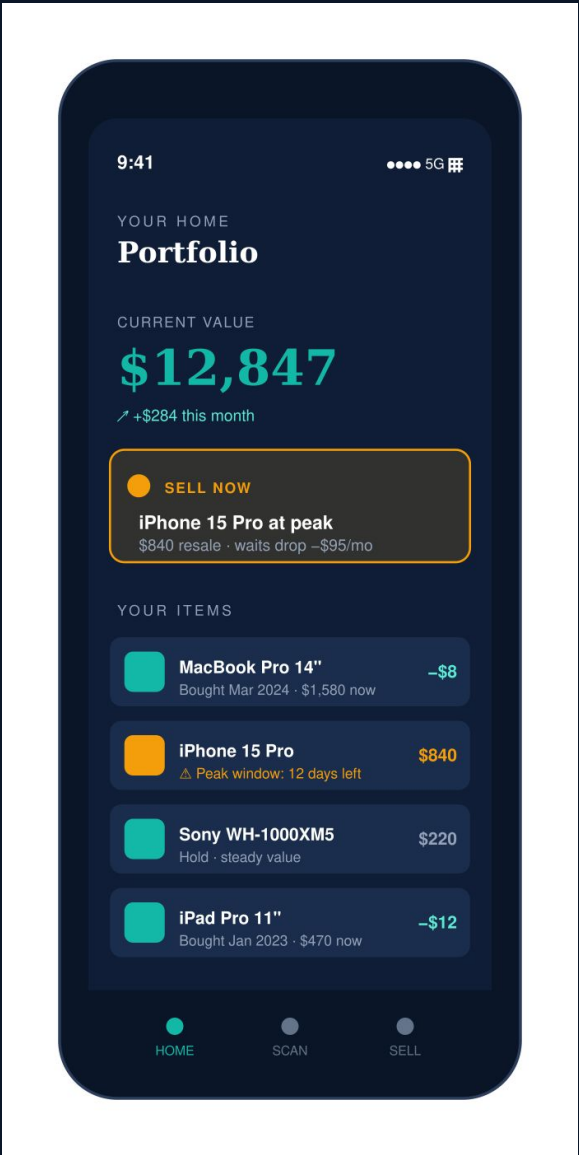

Get notified before the peak passes

One-click list

Push to eBay, Mercari, Facebook in seconds

Net upgrade

See what an upgrade actually costs you

Every item has a peak.

AssetLoop tells you when it's about to pass.

iPhone Value Curve (typical 128GB model)

Source: SellCell 2026 Smartphone Depreciation Report

YEAR 1

-52%

Average smartphone value drop

YEAR 3

-80%

If sold late instead of at peak

LOSS / HOUSEHOLD

\$600-\$1,200

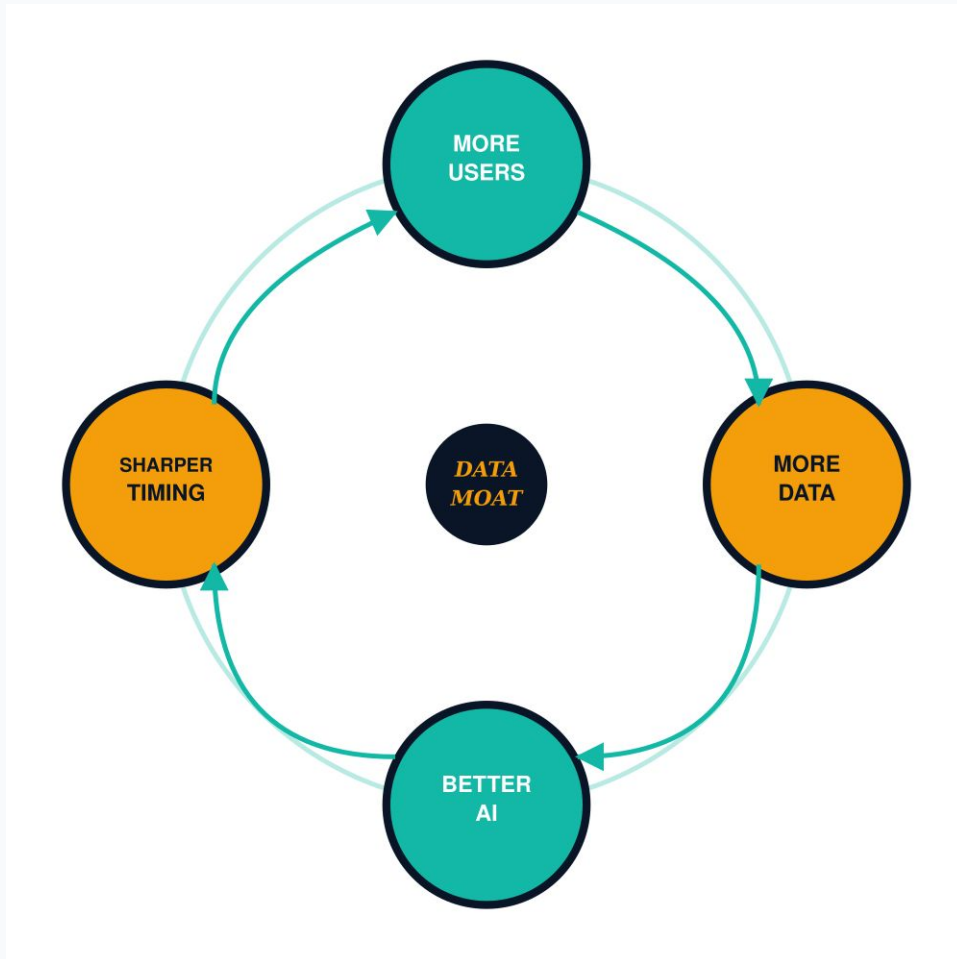

Per 3-year cycle (4 devices)

Part III

The Data Moat

Competitors copy features. They can't copy years of data.

The loop that compounds.

Every user makes the next user's experience better.

- **More users** Each adds device history, condition data, sale outcomes.
- **Better AI** More inputs = more accurate timing predictions for everyone.
- **Sharper alerts** Users sell at peak value — recurring proof of value.
- **Stronger moat** After 3 years of data, no competitor can catch up.

Part IV

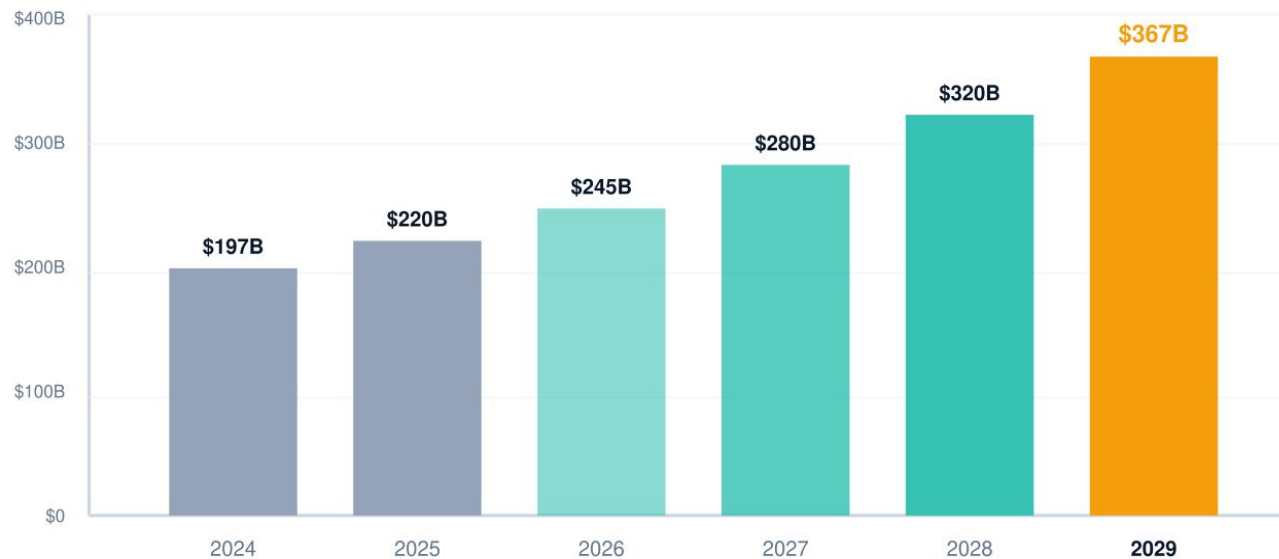

The Market

\$367B by 2029. Already here. Already growing eight times faster than retail.

The market is not emerging. *It is already here.*

Global Secondhand Market

\$197B → \$367B by 2029 · 10% CAGR

Source: ThredUp 13th Annual Resale Report 2025 (GlobalData)

+23%

Online resale growth in 2024

Strongest since 2021

8×

Faster than retail clothing

ThredUp / GlobalData 2025

68%

Of Gen Z + Millennials buy secondhand

Up from 50% pre-pandemic

46%

Of Gen Z apparel budget = resale

Resale-first shopping behavior

Source: ThredUp 13th Annual Resale Report 2025 (GlobalData)

Four forces converging.

All by 2027.

AI Vision is mission-critical

75%

of manufacturers now deploy CV

Computer vision moved from pilot to production in 2026. Cost of deployment fell, scanning a phone from a photo now works at scale.

Datature 2026 Enterprise Vision AI Report

Smart homes are saturated

89.5%

US smart home penetration (2025)

By 2029: 99%. Every household has IoT devices generating data — the inventory layer is the missing piece.

Statista Smart Home U.S. 2025

Resale shopping is mainstream

58%

of US shoppers bought resale (2024)

68% for Gen Z + Millennials. Resale isn't a niche — it's the default for our buyers.

ThredUp 2025 Resale Report

The competitor field is clearing

Dec 2025

Encircle consumer app shutdown

The only adjacent consumer app exits Dec 17, 2025. Sortly went B2B. No one is left in the consumer-ownership loop.

Encircle Help Center, 2025

Three revenue streams.

One data moat.

01

Subscription

\$7.99/mo

Premium tier with sell alerts, value tracking, marketplace integration.

Target: 5% paid conversion (industry: 3-8%)

02

Transaction Fee

2.5%

Optional one-click listing to eBay, Mercari, Facebook. Users save 10-17% vs eBay's 13%.

Avg sale: \$500 · Fee: \$12.50

03

B2B Data SaaS

Year 3+

Anonymized aggregate data licensed to insurance, retail, and OEM manufacturers.

Triggered at 500K+ active users

3-year ARR projection:

\$312K (Y1) → \$1.65M (Y2) → \$7.2M (Y3)

THE ROADMAP

18 months from idea *to launch.*

WHAT WE'D BUILD

45%	AI & Vision Engine <i>Product recognition + depreciation models</i>
25%	Mobile Product <i>iOS + Android core experience</i>
20%	Go-to-Market <i>Launch, content, paid acquisition</i>
10%	Operations <i>Legal, infrastructure, contingency</i>

MILESTONES

●	Q4 2026	Closed beta <i>500 users, AI accuracy >90%</i>
●	Q2 2027	Public launch <i>iOS + Android, US market</i>
●	Q4 2027	50K users <i>First subscription revenue</i>
●	Q2 2028	Scale phase <i>B2B data layer, expansion</i>

Four people. *One mission.*

VISION & PRODUCT

SAM

2026***858

Drives product strategy and user research.
Owns the why, what, and when of the platform.

RESEARCH & DATA

BATBOLD ANKHILUUN

2026***754

Owns market intelligence, depreciation models, and the data layer behind the AI engine.

DESIGN & UX

CHAIMAE

2026***863

Crafts the mobile experience — from scan flow to portfolio dashboard. Visual brand owner.

BUSINESS & STRATEGY

KANG HYE-RAN

강혜란 · 2021***255

Builds the revenue model, partnerships, and go-to-market plan. Owns growth.

Currently in build phase · Spring 2026

Companies have managed
assets for decades.

Individuals never had the tools.

Until now.
